-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 6, 7 and 9-12 are rejected under 35 U.S.C. 102(e) as being anticipated by Gitlin et al. (U.S. Patent No. 5,880,620).

In re claims 6, 9 and 11, Gitlin discloses, in a circuit comprising at least one SOI device (column 6, lines 31-32), a method for enhancing the performance of the circuit, the method comprising the steps of:

providing a pulse discharge circuit connected to the at least one SOI device;

using the pulse discharge circuit to discharge any accumulated potential on a body of the at least one SOI device prior to accessing the at least one SOI device (columns 3 and 4).

In re claims 7, 10 and 12, Gitlin discloses the methods of claims 6, 9 and 11 respectively, wherein the circuit comprises a memory circuit (column 6, lines 7-9).

Allowable Subject Matter

Claims 8 and 13 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 14 is allowed.

The following is a statement of reasons for the indication of allowable subject matter: The prior art discloses the pulse discharge circuit as claimed but does not provide for the use of said circuit in the reading or writing to a memory device as is claimed in claims 13 and 14. Additionally, the prior art of record does not disclose the circuitry of dependent claim 8.

Response to Arguments

Applicant's arguments, see Appeal Brief, filed 04/07/06, with respect to the rejection(s) of claim(s) 6-14 have been considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Gitlin (as above).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jesse A. Fenty whose telephone number is 571-272-1729. The examiner can normally be reached on M-F 5/4.
